DECLARATION UNDER 37 CFR 1.132

My name is Gideon Feiner. My residence is, 55 Lamerchav st Ramat-Hasharon
Israel. I am an Israeli citizen.

I am CEO of Polymer Logistics.

I have more than 20 years working experience in the plastic industry,among other jobs I was Marketing Director of General Electric Plastics Europe as well as working with Equipment processors like Arburg and Sandretto.

In all, I have been involved with the field of production and marketing of plastic products for more than 20 years from almost every angle.

I have reviewed U.S. Patent No. 4,741,936 to Nohara et al. (hereafter "Nohara"). The patent relates to the bottle manufacturing technology of draw-blow molding and addresses the specific issue of creating a multi-layer laminated bottle by this technique.

This manufacturing technique, as widely practiced during the 1980s and 1990s generally formed bottles with round (i.e., roughly hemispherical) bases. In order to
